Subject Index to Volume 34

A

Abdomen, adhesions, detection, prelaparoscopic echography (EAW), 34:446
Abdominal situs inversus, complete, ERCP and endoscopic papillotomy (LTE), 34:150
Achalasia, pneumatic dilation, delayed esophageal perforation after (LTE), 34:365
Adenoma, pedunculated, residual stalk, type of colonic polyp (EAW), 34:296
Aerodigestive tract, upper, tumors, vital staining (LTE), 34:283
AIDS
  anti-spatter device for infective fluids, endoscopic personnel (NM), 34:470
  -related complex, giant esophageal ulcers in (LTE), 34:153
Alcohol
  as sclerosing agent
    pulmonary hemodynamic changes after (OA), 34:403
    safety and efficacy (OA), 34:400
    variceal injection (E), 34:434
American Society for Gastrointestinal Endoscopy
  abstracts of annual meeting, 34:171
  author index to abstracts, 34:220
  distinquished lecture, Endoscopic therapy of pancreatic disease: a new horizon, 34:386
  presentation of the 1988 Rudolf Schindler Award, 34:381
  presidential address 1988, 34:377
  subject index to abstracts, 34:223
Ampulla of Vater, endoscopic cannulation (E), 34:278
Angiography, unintentional, during endoscopic papillotomy (LTE), 34:67
Appendicitis, complication of colonoscopy (LTE), 34:489
Appendix, adenocarcinoma, radioendoscopic diagnosis (LTE), 34:155
Arthritis, reactive, repeat ileocolonoscopy (EAW), 34:370
Ascaris lumbricoides
  biliary infection, endoscopic management (OA), 34:318
  biliary tree, endoscopic balloon catheter extraction (CR), 34:272
Ascites, artificial, laparoscopy with (EAW), 34:160
Aspiration, guided fine needle, hepatocellular carcinoma diagnosis (OA), 34:235
Azygos vein, blood flow evaluation, two-dimensional Doppler echography (NM), 34:125

B

Bacteremia, after laser treatment, stenosing colorectal lesions (LTE), 34:73
Bacteria, role in biliary stent blockage (OA), 34:19
Balloon catheter, *Ascaris lumbricoides* extraction, biliary tree (CR), 34:272
Balloon dilation, stomal stenosis treated by, after gastric surgery for morbid obesity, 34:372
Barrett's esophagus, early adenocarcinoma, detection by endscopic biopsy (EAW), 34:493
Bezoar
  iatrogenic, gastric bubble (OA), 34:463
  tissue paper, associated with percutaneouly placed gastrostomy tube (CR), 34:142
BICAP probe, colonic perforation caused by (CR), 34:58
Bile duct
  common, retained stones, endoscopic biliary endoprosthesis, elderly patients (LTE), 34:492
  drainage, combined endoscopic and radiological method (NM), 34:42
  obstruction
    malignant, optimal stent shape and diameter, 34:412
    partial, evaluation, hepatobiliary scintigraphy and fatty-meal sonography (EAW), 34:494
  stones
    endoscopic removal, pyogenic cholangitis (OA)34:238
    giant, fragmentation and removal (E), 34:281
    large, removal through a choledochoduodenostomy (LTE), 34:369
    percutaneous transhepatic choledochoscopic electrohydraulic lithotripsy (NM), 34:122
    removal, recurrent pyogenic cholangitis (OA), 34:238
    stents for, elderly patients (LTE), 34:285
Biliary drainage, endoscopic internal, hilar malignant stricture treatment (OA), 34:95
Biliary stent
  blockage, role of bacteria (OA), 34:19
  percutaneous-endoscopic placement (NM), 34:45
Biliary stricture, benign, caused by vascular ring (CR), 34:347
Biliary tract
  external biliary fistulas, endoscopic sphincterotomy treatment (OA), 34:307
  intervention, team approach (E), 34:432
  malignant obstruction, iridium 192 treatment (OA), 34:301
Biliary tree
  Ascaris lumbricoides infection
    endoscopic balloon catheter extraction (CR), 34:272
    endoscopic management (OA), 34:318
Billroth II, percutaneous-endoscopic biliary stent placement for (NM), 34:45
Biopsy
  endoscopic, detection of early adenocarcinoma, Barrett's esophagus (EAW), 34:493
  fine needle
    gastroesophageal malignancies (OA), 34:321
    hepatic lesions diagnosed by (OA), 34:231
Blood, fecal, drug-induced gastric mucosal lesions and (OA), 34:247
BOOK REVIEWS
  AGA Clinical Teaching Project—Unit 2—Acute Gastrointestinal Bleeding, 34:82
  AGA Undergraduate Teaching Project Review: Alimentary Tract Motility: Stomach, Small Intestine, Colon, and Biliary Tract, 34:374
  Benign Strictures of Bile Ducts, 34:299
  Biopsy Pathology in Colorectal Disease, 34:497
  Cancer of the Stomach, 34:446
  Controlled Therapeutic Trials in Gastroenterology, 34:298
  Disorders of the Liver, 34:446
  Flexible Sigmoidoscopy for Primary Care Physicians, 34:297
  Gastroenterologic Endoscopy, 34:299
  Gastroesophageal Reflux, 34:496
  Gastrointestinal Cytoprotection by Prostaglandins—Focus on Misoprostol (Perspectives in Digestive Disease 2), 34:299
  Handbook of Gastrointestinal Imaging, 34:83
  Hepatocellular Carcinoma: An Atlas of Its Pathology, 34:81
  Immunology of the Gastrointestinal Tract and Liver, 34:497
  Inflammatory Bowel Disease, ed. 3, 34:499
  Inflammatory Bowel Disease Clinical Teaching Project with Slides, 34:82
  Inflammatoy Bowel Disease (Tenth International Berzelius Symposium sponsored by the Swedish Society of Medicine), 34:163
  Manometric Diagnosis of Gastrointestinal Motility Disorders, 34:373
  Manual of Gastroenterologic Procedures, ed. 2, 34:373
  Nutrition in Gastrointestinal Disease, 34:162
  Pathology of the Liver, ed. 2, 34:163
  Perspectives in Digestive Disease. Volume I: Topics in Peptic Ulcer Disease, 34:298
  Physiology of the Gastrointestinal Tract, ed. 2, 34:374
  Problems and Controversies in Gastroenterology, 34:163
  Stoma Therapy—An Atlas for Intestinal Stomas, 34:162
  Techniques in Therapeutic Endoscopy, 34:84
  The Liver: An Atlas and Text of Ultrastructural Pathology, 34:81
  The Liver: Biology and Pathobiology, ed. 2, 34:498
  Therapeutic Endoscopy in Gastrointestinal Surgery, 34:84
Bouveret's syndrome, duodenal bulb obstruction by gallstone (LTE), 440

C

Cancer
  diagnosis, endoscopic ultrasonography, pancreas (OA), 34:1
  gastric, unified international staging classification system (EAW), 34:79
  surveillance, ulcerative colitis patients (EAW), 34:80
Candidiasis, after cimetidine therapy (LTE), 34:283
Cannulation, endoscopic, Ampulla of Vater (E), 34:278
Carcinoma
  early gastric, macroscopic classification (EAW), 34:443
  hepatocellular, diagnosis, fine needle aspiration (OA), 34:235
Catheter, double bubble, in laparoscopic cholecystostomy (LTE), 34:73
Cecum
  perforation
    after flexible sigmoidoscopy (LTE), 34:69
    after upper endoscopy and pyloric dilation (LTE), 34:490
Chloroquine phosphate, gastroduodenitis after ingestion of (LTE), 34:488
Cholangitis, pyogenic, endoscopic stone removal (OA), 34:238
Cholecystostomy, laparoscopic, double bubble catheter technique (LTE), 34:73
Choledochoduodenostomy, removal of large common bile duct stone through (LTE), 34:369
Choledocholithiasis
  percutaneous-endoscopic procedure for, evaluation (EAW), 34:444
  tunable dye laser lithotripsy treatment (NM), 34:418
Cimetidine, candidiasis after (LTE), 34:283
Classification, gastric cancer, unified international staging system (EAW), 34:79
Cloggology, therapeutic, esophageal cancer and (E), 34:147
Coagulation, diminutive colonic polyps (LTE), 34:284
Colitis
  obstructive, diagnosis by pediatric colonofiber-

scope (CR), 34:140
ulcerative, cancer surveillance of patients with (EAW), 34:80
Collagen, endoscopic implant, gastroesophageal reflux inhibited by (OA), 34:106
Colon
foreign body insertion, colonoscopic removal (LTE), 34:286
lavage solution, simethicone effectiveness (OA), 34:255
perforation, BICAP-induced (CR), 34:58
polyp
diminutive, endoscopic bipolar forceps treatment (NM), 34:38
diminutive, safe coagulation (LTE), 34:284
estimation of size (LTE), 34:284
juvenile, with adenoma (LTE), 34:75
residual stalk of pedunculated adenomas (EAW), 34:296
pseudo-obstruction, colonoscopic decompression for, transplant recipients (CR), 34:426
Colonofiberscope, pediatric, obstructive colitis diagnosed with (CR), 34:140
Colonoscope
130-cm, for screening flexible sigmoidoscopy (OA), 34:459
duodenoscopy with, paraesophageal hernia (CR), 34:274
Colonoscopy
acute nontoxic megacolon treatment during, tube placement versus simple decompression (OA), 34:23
appendicitis following (LTE), 34:489
comparison, fiberoptic and video, transillumination, right lower quadrant (LTE), 34:69
decompression by, pseudo-obstruction, transplant recipients (CR), 34:426
diagnostic accuracy, endoscopically placed clip (NM), 34:262
foreign body removed from colon by (LTE), 34:286
operative site management and, colorectal cancer (EAW), 34:159
preferred initial investigation, colonic disease (EAW), 34:493
proctitis after (CR), 34:269
total, transillumination, right lower quadrant (LTE), 34:69
visibility during, simethicone effectiveness (OA), 34:255
Colorectum
cancer
inoperable, Nd:YAG laser therapy (EAW), 34:159
in regional ileitis (EAW), 34:80
operative management, colonoscopy and (EAW), 34:159
screening, video endoscopy by nurse practitioners (OA), 34:390
polyp, hyperplastic, histological study (EAW), 34:494
stenosing lesions, bacteremia after laser therapy (LTE), 34:73
Columnar mucosa, in proximal esophagus (OA), 34:324
Contrast media, ERCP, comparison (EAW), 34:295

D

Decompression
colonoscopic, versus tube placement, acute nontoxic megacolon (OA), 34:23
sigmoid volvulus, overtube for (LTE), 34:491
Diazepam
endoscopy premedication, compared with midazolam (OA), 34:252
shortening of recovery time (LTE), 34:491
Drugs, nonsteroidal anti-inflammatory, peptic ulcer complications and (EAW), 34:371
Duodenoscope, new multipurpose (NM), 34:421
Duodenum, gastrinoma, endoscopic diagnosis (CR), 34:430

E

Echography
prelaparoscopic, abdominal adhesions detected by (EAW), 34:446
two-dimensional Doppler, azygos venous flow evaluated by (NM), 34:125
EDITORIALS, 34:64, 34:65, 34:145, 34:147, 34:277, 34:278, 34:280, 34:281, 34:359, 34:361, 34:432, 34:434, 34:482, 34:483
Electrocardiography, Holter dynamic, during laparoscopy (LTE), 34:72
Emphysema, unilateral periorbital, complication of endoscopic papillotomy (CR), 34:473
Endoprosthesis
biliary, proximal migration (LTE), 34:70
double lumen, iridium 192 implantation by (OA), 34:301
endoscopic biliary, retained common bile duct stones, elderly patients (LTE), 34:492
in extrinsic pyloric obstruction (CR), 34:476
insertion, combined endoscopic and transhepatic approach (NM), 34:42
Endoscope, small diameter, oral medication, diagnostic upper endoscopy (OA), 34:327
Endoscopy
comparison, fiberoptic and electronic video (LTE), 34:77
digestive, International Congress of Digestive Videoendoscopy and Audiovisual Methods (EAW), 34:79
duodenal gastrinoma diagnosed by (CR), 34:430
electronic, analysis of mucosal blood hemoglobin distribution (NM), 34:332
personnel, anti-spatter device for AIDS-infective fluids (NM), 34:470
premedication, midazolam versus diazepam (OA), 34:252
ultrasonographic, future of (E), 34:64
upper
cecal perforation after (LTE), 34:490
premedication comparison (EAW), 34:445
review, Turkey (LTE), 34:68
video
by nurse practitioners (OA), 34:390
future of (E), 34:361
Endoscopy Around the World, portal hypertension assessment and (LTE), 34:154
Endosonography, invasion depth assessment, rectal cancer (EAW), 34:79
ERC, biliary malformation diagnosed by, infants (OA), 34:449
ERCP
cannula, intracholedochal knotting (LTE), 34:71
comparison of contrast media (EAW), 34:295
consecutive *Serratia marcescens* infection after (CR), 34:345
early days (E), 34:277
endoscopic papillotomy and, complete abdominal situs inversus (LTE), 34:150
gallbladder diverticulum diagnosis (LTE), 34:150
pancreatic islet cell tumors (CR), 34:47
pancreatic trauma (LTE), 34:442
pancreatic trauma (OA), 34:102
preoperative and intraoperative, pancreatic trauma (E), 34:145
preoperative diagnosis, Mirizzi syndrome (LTE), 34:289
ERP, pancreatic microcystic adenoma demonstrated by (CR), 34:52
Esophageal varices
alcohol as sclerosing agent (E), 34:434
bleeding, endoscopic sclerotherapy versus medical treatment, schistosomal liver disease (OA), 34:314
endoscopic esophageal varix ligation (OA), 34:112
eradication by endoscopic sclerotherapy (OA), 34:395
pregnancy and (LTE), 34:492
propranolol prevention of hemorrhage (EAW), 34:161
sclerotherapy
injection pistol technique (LTE), 34:153
prophylactic (EAW), 34:496
prophylactic injection (E), 34:359
Esophageal vein, sclerosis, alcohol, safety and efficacy (OA), 34:400
Esophagus
biopsy, endoscopic fine needle aspiration (OA), 34:321
cancer
palliative Nd:YAG laser therapy (OA), 34:87
therapeutic cloggology and (E), 34:147
carcinoma, endoscopic palliation (OA), 34:454
cuffed prosthesis, palliation of respiratory-esophageal fistula by (EAW), 34:372
delayed perforation
after pneumatic dilation for achalasia (LTE), 34:365
after sclerotherapy (LTE), 34:364
endoscopic varix ligation, esophageal varices treatment (OA), 34:113
giant ulcers, AIDS-related complex (LTE), 34:153
proximal, columnar mucosa in (OA), 34:324
spontaneous perforation, during gastroscopy (LTE), 34:75
stent placement, nonoperative traction method (NM), 34:259

F

Falciform ligament, prominent, clinical significance, pneumoperitoneum setting (LTE), 34:290
Fasciitis, necrotizing, after percutaneous endoscopic gastrostomy (LTE), 34:487
Fibrin, tissue adhesive, endoscopic application (EAW), 34:294
Fistula
cholecystocolonic, endoscopic sphincterotomy treatment (CR), 34:55
gastrocolic, late presentation, after gastrostomy (LTE), 34:368
respiratory-esophageal, palliation with cuffed esophageal prosthesis (EAW), 34:372
Forceps
endoscopic bipolar, diminutive polyp treatment (NM), 34:38
substitute channel cover (LTE), 34:443
FROM THE ROSTRUM, 34:77, 34:158, 34:292, 34:362, 34:436, 34:485

G

Gallbladder
after endoscopic sphincterotomy, retrospective review (EAW), 34:160
diverticulum, ERCP diagnosis (LTE), 34:150
lithotripsy, retrograde dissolution of fragments (NM), 34:468
long-term fate, after endoscopic sphincterotomy (EAW), 34:371
Gallstone
electrohydraulic lithotripsy (LTE), 34:149
pyloroduodenal obstruction by (LTE), 34:440
retrograde dissolution, after extracorporeal shock wave lithotripsy (NM), 34:468
Gangrene, digital, intraoperative injection sclerotherapy complicated by (LTE), 34:151
Gastrectomy
partial, gastric stump cancer, prevalence, Italy (OA), 34:242
PEG after, feasibility assessment (LTE), 34:366
total, percutaneous-endoscopic biliary stent placement for (NM), 34:45
Gastric antrum, obstructing web, endoscopic laser treatment (CR), 34:349
Gastric bubble
Garren-Edwards
deflation with Nd:YAG laser (LTE), 34:157
deflation with sclerotherapy needle (LTE), 34:157
exogenous obesity and (LTE), 34:285
small bowel obstruction after (OA), 34:463
Gastric mucosa
drug-induced lesions, fecal blood loss and (OA), 34:247
ischemia, vasopressin and propranolol effects, dog (OA), 34:310
lesion, tongue coating and (EAW), 34:370
Gastric outlet, obstruction, gastrostomy tube migration (LTE), 34:486

Gastric stump, cancer, prevalence, Italian population (OA), 34:242
Gastrinoma, in afferent loop of gastrojejunostomy, endoscopic localization (LTE), 34:439
Gastroduodenitis, chloroquine phosphate-induced (LTE), 34:488
Gastroesophageal junction, cancer, palliative Nd:YAG laser therapy (OA), 34:87
Gastroesophageal reflux, inhibition, collagen, endoscopic implant (OA), 34:106
Gastrointestinal Endoscopy
new editorship (E), 34:482
proceedings of training directors' workshop, 34:355
tribute to reviewers, 34:501
Gastrointestinal tract
leukemic involvement, colonoscopic findings (CR), 34:59
lower, radiation injury, Nd:YAG laser treatment, 34:407
mycosis fungoides (CR), 34:478
upper
bleeding, Malaysia (LTE), 34:437
comparison, endoscopy premedications (OA), 34:252
elective endoscopy, elderly patients (OA), 34:118
endoscopic application of fibrin tissue adhesive (EAW) , 34:294
endoscopy, Turkey (LTE), 34:68
hemorrhage, after gastric ulcer complicating PEG, 34:288
intubation, soft palate necrosis secondary to (LTE), 34:363
oral medication using small diameter endoscope, 34:327
polyps, nature and prevalence (EAW), 34:78
Gastrojejunostomy, afferent loop, gastrinoma in (LTE), 34:439
Gastroplasty, horizontal banded, Marlex erosion after (OA), 34;461
Gastroscopy, esophagus perforation during (LTE), 34:75
Gastrostomy, percutaneous, late presentation of gastrocolic fistula after (LTE), 34:368
Gastrostomy tube
migration prevention (LTE), 34:486
percutaneous placement, tissue paper bezoar associated with (CR), 34:142
Geriatrics
common bile duct stones, stents for (LTE), 34:285
elective upper gastrointestinal endoscopy, prospective analysis (OA), 34:118
endoscopic biliary endoprosthesis, retained bile duct stones (LTE), 34:492
Graft, prosthetic vascular, thrombosis, after colonoscopic polypectomy (CR), 34:137

H

Hemoglobin, mucosal blood distribution analysis, electronic endoscopic imaging technique (NM), 34:332
Hemorrhage
gastroduodenal, mortality rate estimation (EAW), 34:295
variceal, sclerotherapy techniques compared (E), 34:483
Hernia, paraesophageal, duodenoscopy with colonoscope (CR), 34:274
Hilum, malignant stricture, endoscopic internal biliary drainage treatment (OA), 34:95
Hospital, licensing criteria, competence or competition? (LTE), 34:486
Hot biopsy, forceps technique, complications (OA), 34:32
Hypertension
portal
assessment, role of Endoscopy Around The World (LTE), 34:154
azygos venous flow evaluation by two-dimensional Doppler echography (NM), 34:125
vasopressin and propranolol effects, dog (OA), 34:310
preendoscopy, buccal nifedipine management (LTE), 34:156

I

Ileitis, regional, colorectal cancer in (EAW), 34:80
Ileocolonoscopy, repeat, in reactive arthritis (EAW), 34:370
Ileum, ulceration, typhoid fever (LTE), 34;442
Infant, biliary malformation, ERC diagnosis (OA), 34:449
Intussusception, retrograde jejunogastric, endoscopic management (CR), 34:56
Iridium 192, endoscopic implantation, double lumen endoprosthesis technique (OA), 34:301

L

Lactulose, nontoxic megacolon related to (LTE), 34:490
Laparoscopy
anabiosis of (E), 34:280
fine needle aspiration directed by, hepatocellular carcinoma diagnosis (OA), 34:235
hepatic lesion diagnosis, comparison, fine needle biopsy (OA), 34:231
Holter dynamic electrocardiography during (LTE), 34:72
Listeria peritonitis diagnosed by (CR), 34:352
1.2 mm pneumoperitoneum needle, technical aspects (NM), 34:471
retroperitoneal pathology (OA), 34:227
tuberculous peritonitis and (LTE), 34:151
tuberculous peritonitis diagnosed by (CR), 34:422
with artificial ascites (EAW), 34:160
Laser therapy
argon, radiation proctitis (LTE), 34:489
combined with snare electrocutting technique, enucleation of gastric leiomyoma (NM), 34:128
Nd:YAG
gastric bubble deflation (LTE), 34:157
new transmission system (NM), 34:336
obstructing antral web treated with (CR), 34:349
obstructive esophagogastric malignancy (OA), 34:454
palliative, esophageal cancer (OA), 34:87
radiation injury, lower gastrointestinal tract, 34:407
water-guided beam (NM), 34:336
stenosing colorectal lesions, bacteremia after (LTE), 34:73
transendoscopic photocoagulation, watermelon stomach treatment (CR), 34:134
tunable dye, lithotripsy, choledocholithiasis treatment, 34:418
Leiomyoma, gastric, enucleation by combined laser and snare electrocutting technique (NM), 34:128
Leukemia, colonoscopic findings (CR), 34:59
Listeria monocytogenes, peritonitis, laparoscopic diagnosis (CR), 34:352
Lithotripsy
electrohydraulic, gallstones (LTE), 34:149
extracorporeal shock wave, retrograde dissolution of fragments (NM), 34:468
percutaneous transhepatic cholangioscopic
combined with endoscopic sphincterotomy (OA), 34:91
common bile duct stones (NM), 34:122
tunable dye laser, choledocholithiasis treatment (NM), 34:418
Liver
cirrhosis, propranolol prevention of hemorrhage (EAW), 34:161
lesion, diagnosis, fine needle biopsy vs. laparoscopy (OA), 34:231
schistosomal disease, endoscopic sclerotherapy versus medical treatment, bleeding esophageal varices (OA), 34:314

M

Malformation
biliary, ERC diagnosis, infant (OA), 34:449
vascular, diagnosis, Doppler ultrasound (EAW), 34:495
Malignancy, obstructive esophagogastric, endoscopic palliation (OA), 34:454
Marlex mesh, erosion, complication of horizontal banded gastroplasty (OA), 34:461
Megacolon
acute nontoxic, treatment during colonoscopy (OA), 34:23
lactulose-induced (LTE), 34:489
Midazolam, shortening of recovery time (LTE), 34:491
Mirizzi syndrome, preoperative diagnosis, ERCP (LTE), 34:289
Mortality, gastroduodenal hemorrhage, estimation by new scoring system (EAW), 34:295
Mycosis fungoides, with gastrointestinal involvement (CR), 34:478

N

Needle, pneumoperitoneum, smaller version for laparoscopy (NM), 34:471
Nifedipine, buccal, preendoscopy hypertension (LTE), 34:156
Nurse practitioners, video endoscopy by, model for colorectal cancer screening (OA), 34:390

O

Obesity, exogenous, gastric balloon and (LTE), 34:285
Ogilvie's syndrome, colonoscopic decompression, transplant recipients (CR), 34:426

P

Pancreas
cancer, endoscopic ultrasonography diagnosis (OA), 34:1
endoscopic drainage, chronic pancreatitis (OA), 34:9
islet cell tumors, ERCP detection (CR), 34:47
microcystic adenoma, ERP diagnosis (CR), 34:47
trauma
ERCP diagnosis (OA), 34:102
ERCP in (LTE), 34:442
preoperative and intraoperative ERCP (E), 34:145
Pancreatic duct
stenosis, pancreatitis of unknown etiology (CR), 34:131
stent, chronic pancreatitis (E), 34:65
Pancreatitis
chronic, endoscopic drainage (OA), 34:9
endoscopic therapy, a new horizon, 34;386
severe, acute, complication of sphincter of Oddi manometry (CR), 34:342
unknown etiology, stenosis of main pancreatic duct in (CR), 34:131
Papillotomy
endoscopic
complication (LTE), 34:67
ERCP and, abdominal situs inversus (LTE), 34:150
unilateral periorbital emphysema after (CR), 34:473
PEG
after gastrectomy, feasibility assessment (LTE), 34:366
feeding tube migration and impaction (LTE), 34:367
gastric ulcer complication, hemorrhage secondary to (LTE), 34:288
in developing countries (LTE), 34:72
kit, suggested improvements (LTE), 34:74, 34:75
necrotizing fasciitis after (LTE), 34:487
placement of esophageal stent and (NM), 34:259
prominent falciform ligament, significance, pneumoperitoneum setting (LTE), 34:290
Russell, key technical steps (NM), 34:339
Peritonitis
Listeria, laparoscopic diagnosis (CR), 34:352
tuberculous
laparoscopic diagnosis (CR), 34:422
laparoscopy and (LTE), 34:151
Photocoagulation, transendoscopic laser, watermelon stomach treatment (CR), 34:134

Pneumoperitoneum, prominent falciform ligament and, clinical significance (LTE), **34**:290
Polypectomy, colonoscopic, graft thrombosis after (CR), **34**:137
Polyposis, familial adenomatous, gastric and duodenal polyps in (EAW), **34**:78
Pregnancy, esophageal varices and (LTE), **34**:492
Premedication, upper endoscopy, comparison, midazolam, diazepam, and placebo (EAW), **34**:445
Proctitis
  after colonoscopy (CR), **34**:269
  radiation, argon laser treatment (LTE), **34**:489
Propranolol
  gastric mucosal ischemia and, portal hypertension, dog (OA), **34**:310
  hemorrhage prevention, patients with liver cirrhosis and esophageal varices (EAW), **34**:161
Prostheses, intraesophageal, obstructive esophagogastric malignancy (OA), **34**:454
Pulmonary artery, hemodynamics, after intravariceal sclerotherapy with absolute alcohol, **34**:403
Pyloric channel, extrinsic obstruction, endoprosthetic stenting in (CR), **34**:476
Pylorus, dilation, cecal perforation after (LTE), **34**:490

R

Radiation injury, Nd:YAG laser therapy, lower gastrointestinal tract, **34**:407
Radioendoscopy, adenocarcinoma of the appendix diagnosis (LTE), **34**:155
Rectum
  cancer, depth of invasion assessment by endosonography (EAW), **34**:79
  villous adenoma, transanal excision (LTE), **34**:284
Resection, endoscopic, hypertonic saline-epinephrine injection (NM), **34**:264
Retroperitoneum, pathology, laparoscopy and (OA), **34**:227
Rudolf Schindler, remarks by his daughter, **34**:383

S

Saline-epinephrine, hypertonic, endoscopic resection with, early gastric cancer (NM), **34**:264
Scintigraphy, hepatobiliary, evaluation, partial common duct obstruction (EAW), **34**:494
Sclerosis, esophageal vein, absolute alcohol, safety and efficacy (OA), **34**:400
Sclerotherapy
  bleeding esophageal varices, versus medical treatment, schistosomal liver disease (OA), **34**:314
  delayed esophageal perforation after (LTE), **34**:364
  esophageal varices
    absolute alcohol, safety and efficacy (OA), **34**:400
    eradication by (OA), **34**:395
    injection pistol technique (LTE), **34**:153
  injection, intraoperative, digital gangrene after (LTE), **34**:151
  intravariceal, alcohol sclerosant, pulmonary hemodynamic changes after (OA), **34**:403
  maintenance, manometric assessment of varices (EAW), **34**:293
  prophylactic, esophageal varices (EAW), **34**:496
  prophylactic injection, esophageal varices (E), **34**:359
  variceal hemorrhage control and prevention, technique comparison (E), **34**:483
Sedation, oral, premedications for upper endoscopy compared (EAW), **34**:445
Serratia marcescens, consecutive infections, after ERCP (CR), **34**:345
Sigmoidoscopy
  fiberoptic, penetration depth (OA), **34**:28
  flexible
    cecal perforation after (LTE), **34**:69
    screening, 130-cm colonoscope (OA), **34**:459
Sigmoid volvulus, decompression, overtube for (LTE), **34**:491
Simethicone, visibility during colonoscopy improved by (OA), **34**:255
Small bowel, obstruction, after gastric bubble implantation (OA), **34**:463
Soft palate, necrosis, upper gastrointestinal intubation and (LTE), **34**:363
Sonography, fatty-meal, evaluation, partial common duct obstruction (EAW), **34**:494
SPECTRUM, **34**:62
Sphincter, lower esophageal, endoscopic collagen implant (OA), **34**:106
Sphincter of Oddi, manometry, severe acute pancreatitis attributed to (CR), **34**:342
Sphincterotomy
  combined with percutaneous transhepatic cholangioscopic lithotripsy (OA), **34**:91
  gallbladder, retrorespective review (EAW), **34**:160
  postoperative external biliary fistulas treatment (OA), **34**:307
  spontaneous cholecystocolonic fistula treated by (CR), **34**:55
  long-term fate of gallbladder after (EAW), **34**:371
Staining, in vivo, aerodigestive tract tumors (LTE), **34**:283
Stenosis
  benign papillary, percutaneous-endoscopic procedure for (EAW), **34**:444
  stomal, balloon dilation treatment (EAW), **34**:372
Stent
  biliary, percutaneous-endoscopic placement (EAW), **34**:444
  common bile duct stones, elderly patients (LTE), **34**:285
  endoprosthetic, in extrinsic pyloric obstruction (CR), **34**:476
  optimal diameter, malignant biliary obstruction, **34**:412
Stomach
  biopsy, endoscopic fine needle aspiration (OA), **34**:321
  tumor, endoscopic treatment, nationwide (EAW), **34**:443
Stone, intra- and extrahepatic, combined endoscopic sphincterotomy and percutaneous transhepatic cholangioscopic lithotripsy (OA), **34**:91
Syphilis, secondary, gastric lesions in (LTE), **34**:437

T

Tongue coating, gastric lesions and (EAW), **34**:370
Transillumination, right lower quadrant, comparison, fiberoptic and video colonoscope (LTE), **34**:69
Typhoid fever, ileal ulceration, endoscopic diagnosis (LTE), **34**:442

U

Ulcer
  gastric, PEG complication, hemorrhage secondary to (LTE), **34**:288
  gastroduodenal, seasonal periodicity (LTE), **34**:287
  peptic, life-threatening complications, nonsteroidal anti-inflammatory drugs and (EAW), **34**:371
Ultrasonography
  Doppler, transendoscopic, vascular malformations (EAW), **34**:495
  endoscopic, pancreatic cancer diagnosed by (OA), **34**:1

V

Varices, manometric assessment, in maintenance sclerotherapy (EAW), **34**:293
Vasopressin, gastric mucosal ischemia and, portal hypertension, dog (OA), **34**:310
Videoendoscopy, optical resolution measurement, compared with fiberoscopy (EAW), **34**:160

W

Watermelon stomach, transendoscopic laser photocoagulation treatment (CR), **34**:134

X

Xanthoma, gastric, endoscopic observation (LTE), **34**:437
